Technology, Marketing & Business Systems Consultant

Digital Infrastructure | Marketing Operations | Accessibility | AI-Assisted Workflows

Technology, marketing, and business systems consultant with 15+ years of experience helping small businesses, agencies, creators, and specialized service businesses stabilize, modernize, and maintain their digital operations. Work spans WordPress infrastructure, analytics, marketing operations, accessibility, custom software, documentation, AI-assisted workflows, and practical training. Especially effective in messy environments where business process, technology, marketing, and human communication overlap.

Consulting Practice

Technology, Marketing, & Business Consultant Self-Employed	Fresno, CA	2010-2022 & 2023-2026
---	------------	-----------------------

- Led full-cycle digital transformations for SMBs, agencies, creators, and specialized service businesses, delivering ecommerce platforms, business management tools, marketing systems, and operational software.
- Streamlined workflows, improved revenue operations, and reduced client dependence on fragile manual processes through custom tools, documentation, and practical training.
- Built a referral-driven consulting practice centered on client empowerment, measurable outcomes, and long-term system maintainability.

Selected Client & Agency Experience

Consultant (Part Time Contractor)	TrampsWorld Motorsports Media Lake Havasu, AZ	2026
--------------------------------------	--	------

- Lead marketing, sponsorship, and digital infrastructure strategy for a regional motorsports media network, including website direction, platform decisions, sponsor materials, rate sheets, and partnership workflows.
- Develop audience-growth and revenue systems across website, newsletter, Patreon, sponsor outreach, and event coverage operations.
- Coordinate media access, venue permissions, sponsor communications, and brand collaboration opportunities to support professional event coverage and monetization.

Consultant (Part Time Contractor)	Patrick Hildreth Brand & Design Onalaska, WA	2023–2026
--------------------------------------	---	-----------

- Stabilized and secured a VPS environment hosting 30+ client WordPress sites, overseeing server administration, backups, updates, and access control to ensure stability and security.
- Introduced professional staging and development workflows, eliminating months of downtime during redesigns and enabling faster, disruption-free client launches.
- Applied AI-assisted coding tools to accelerate scaffolding and troubleshooting, delivering custom solutions that enabled online payments, improved content sorting, and extended site functionality to meet client needs.
- Ensured accessibility compliance for a state-contracted client by conducting audits and preparing VPAT documentation to meet ADA requirements.
- Enabled client independence by training marketing staff on Google Analytics and Tag Manager, empowering in-house teams to track and optimize campaigns without external reliance.

Consultant (Part Time Contractor)	Craydl Phoenix, AZ	2024
--------------------------------------	-----------------------	------

- Served as cross-functional technology and marketing strategist for a B2B platform rebuild, aligning software architecture, sales operations, SEO, and team structure into a more scalable business system.

- Developed and designed a B2B application leveraging Rust, TypeScript, and AWS, streamlining sales operations and cutting lead-to-sale timelines by 90%.
- Established and scaled an in-house technology team, driving seamless cross-functional communication and operations; increased organizational efficiency by 40%+ and reduced delivery timelines by 32%.
- Orchestrated a full marketing transformation, including SEO strategy and execution, boosting online visibility, elevating conversion rates by 34%, and generating a 40% increase in qualified leads.

Digital Director (Full Time Contractor)	DO&Be Marketing Vancouver, WA	2023–2024
--	----------------------------------	-----------

- Directed end-to-end digital strategy for agency clients, guiding brand refreshes, voice standards, web redesigns, and multi-channel campaigns that drove a 30% average sales lift across 90% of accounts.
- Advised agency leadership on ROI-driven ad spend, projecting returns, setting budgets, and managing campaigns that consistently exceeded ROAS benchmarks on Google Ads and Meta.
- Adopted early AI-assisted marketing workflows, including Google Ads machine-learning optimization, Meta targeting tools, and generative copy/SEO support, helping improve qualified leads by 40% while maintaining human review and strategic oversight.
- Built scalable marketing operations frameworks, introducing GA4, Tag Manager, and UTM tracking for full-funnel analytics while engineering custom tools (apps, quizzes, dashboards, short links) that cut reporting time by 50%.
- Scaled agency capacity by mentoring junior staff on posting cadence, analytics reporting, and campaign execution, ensuring continuity and reducing reliance on senior consultants.
- Accelerated client delivery by leading Agile consulting initiatives between agency teams and clients, shortening go-to-market timelines by 13% while surpassing client sales goals by 28%.

Enterprise & Operations Background

Senior Software Engineer (Full Time Contractor)	Dell Technologies Round Rock, TX	2022–2023
--	-------------------------------------	-----------

- Elevated accessibility standards by identifying critical testing gaps and delivering department-wide training, expanding QA coverage from 62% to 100% and closing long-standing compliance risks.
- Partnered with engineering teams to embed automated accessibility checks into the CI/CD pipeline, making WCAG compliance part of the development workflow rather than a late-stage review.
- Remediated centralized design-system standards across fonts, colors, UI patterns, and testing practices, helping align design, engineering, and QA teams around inclusive digital delivery.

Senior Software Engineer (Direct Hire)	Group Two Advertising Philadelphia, PA	2022
---	---	------

- Redefined the agency's website delivery model by launching a standardized template-site offering, cutting delivery timelines from 6 months to 1 month, reducing client costs by \$10K per project, and creating a premium custom tier worth an additional \$30K per site.
- Established scalable development and launch workflows across development, SEO, design, QA, and client approval processes, reducing bottlenecks and making website delivery more predictable.
- Strengthened delivery quality and risk management by improving QA processes, auditing credential practices, and recommending WCAG-compliant accessibility alternatives to ineffective overlay solutions.

Account Services Coordinator II (Direct Hire)	CARF Tucson, AZ	2002-2008
--	--------------------	-----------

- Advanced through 9 promotions into a custom-created role supporting Behavioral Health leadership, high-level meetings, contractor coordination, and internal/external communications.
- Led process redesign and documentation efforts during a department merger, streamlining staff duties, improving operational workflow, and supporting the creation of new positions.
- Developed and delivered contractor training on patient interviewing, bias awareness, data analysis, organizational performance measurement, HIPAA, ADA compliance, and accessibility.
